Radoje Jezdic

JavaScript Developer

Serbia, Bajina Bašta   +381 65 541 8476   hello@radoje.dev   github.com/Jezda1337   linkedin.com/in/radoje-jezdic

JavaScript developer with 4+ years of experience building efficient, user-focused web applications. Skilled in front-end frameworks, performance optimization, and delivering reliable, scalable solutions. Collaborative problem-solver passionate about improving workflows and project outcomes.

EXPERIENCE

Luccid.ai | Feb 2025 – Sep 2025 | Frontend Developer | Part-Time

React   NextJS   Redux   TailwindCSS   Vanilla JS   HTML   CSS   Web Components

- Developed and maintained responsive frontends using React and Next.js, delivering seamless user experiences.
- Built two interactive dashboards (client & internal) to improve analytics and team productivity.
- Created an embeddable chatbot SDK, enhancing client engagement and support.
- Collaborated with cross-functional teams to translate requirements into functional solutions.
- Optimized application performance using modern JavaScript frameworks.
- Iterated designs based on user testing, improving satisfaction and usability.

Sylva.ac | 2024 – 2025 | Frontend Developer | Full-Time

Vue   Quasar   SCSS

- Improved system stability and performance by resolving critical issues.
- Maintained and enhanced key projects, ensuring reliability and efficiency.
- Identified bottlenecks and optimized application functionality.

Single.earth | 2021 – 2022 | Frontend Developer | Full-Time

React   Redux   Angular   PostgreSQL   Go   SCSS   BootstrapCSS

- Developed and maintained client-side code in React, enhancing UX and performance.
- Translated Figma designs into Angular interfaces with pixel-perfect accuracy.
- Optimized frontend performance and accessibility.
- Managed KYC form creation, streamlining data collection.
- Wrote 300+ Jest unit tests to ensure code reliability.
- Contributed to Agile CI/CD processes, supporting sprints and deployments.

Rutann.rs | 2021 – 2025 | Fullstack Developer | Part-Time

React   Redux   TailwindCSS

- Maintained and updated website content, ensuring relevance and accuracy.
- Managed packages and dependencies on Linux to optimize system performance.
- Conducted regular server maintenance and performance tuning.

SKILLS

Frontend: Core web technology, Angular, React, Vue, Redux, Vuex, SASS, TailwindCSS, Bootstrap

Backend: Go, Node

Database: PostgreSQL
